

PLANTS, FLOWERS AND FOLIAGES

Relevant features:

Costa Rica offers more than 200 varieties of plants including: Dracaenas, Ficus and Bromeliads. The amount of land dedicated to this type of product reaches 1,234 hectares.

The fertility of our land allows us to offer more than 1,200 varieties of orchids, foliage and other types of flowers such as Petunias, Muses (plant) and Birds of Paradise.

The United States is until now the main export destination for Costa Rican plants, flowers and foliage.

Products or varieties :

- Dracaena deremensis and marginata.
- Aralia.
- Caryotas.
- Ferns.
- Orchids.
- Birds of paradise.
- Irises
- Sunflowers

Our country counts with 5% of the planet's total biodiversity; thanks to this beauty, freshness and variety our flora inventory includes more than 11,000 species of plants; many of them with availability throughout the whole year.

Benefits:

- Plants are easily accessible ventilation systems capable of removing polluting gases.
- Plants reduce nervousness, stress and daily anxiety.
- Anxiety decreases considerably when admiring plants in workspaces.
- Bromeliads can clean up to 80% of six different chemicals indoors.

Certifications:
